SUBJECT INDEX

- Absorption of phenylbutazone from a paste formulation administered orally to the horse 200
- Accumulation of copper on albumin in bovine plasma in vivo after intravenous trithiomolybdate administration 108
- Acute phase response and mastitis in the cow 126
- Adrenal responsiveness, Metabolic clearance rate of cortisol in pigs: relationship to 361
- Age, Bronchus associated lymphoid tissue in the lungs of cattle: relationship to 211
- Age, Immunoglobulin containing cells in the tracheo-bronchial tree of cattle: relationship to 221
- Albumin in bovine plasma in vivo after intravenous trithiomolybdate administration, Accumulation of copper on 108
- Albumin in caprine serum, Determination of 82
- Amylase release from the superfused parotid segments of sheep and rat, Effects of monensin and salinomycin on 207
- Anaemia in the dog, Use of an enzyme indirect antiglobulin test for the diagnosis of autoimmune haemolytic 187
- Anthelmintic treatment, Population dynamics of *Trichostrongylus colubriformis* in sheep following 319
- Antibody-containing cells and specialised epithelial cells in the bovine test 50
- Antigenic differences among the life cycle stages of *Oesophagostomum radiatum* 129
- Antiglobulin test for the diagnosis of autoimmune haemolytic anaemia in the dog, Use of an enzyme indirect 187
- Antimicrobial agents in healthy dwarf goats and those infected with *Ehrlichia phagocytophilia* (tick-borne fever), Chemotherapy and pharmacokinetics of some 386
- Aqueous drainage in the dog 172
- Arteritis virus infection in the stallion: Demonstration of the carrier state in naturally acquired equine 279
- Aujeszky's disease virus, Functional antibody responses in pigs vaccinated with live and inactivated 331
- Babesia ovis* infection in sheep, Efficacy, toxicity and metabolism of imidocarb dipropionate in the treatment of 14
- Beak amputation (beak trimming) in the chicken, Neuroma formation following partial 383
- β -endorphin/ β -lipotrophin, cortisol and prolactin, Effect of electroimmobilisation on ovine plasma concentrations of 371
- β -lipotrophin, cortisol and prolactin, Effect of electroimmobilisation on ovine plasma concentrations of β -endorphin/ 371
- Blood vessels of lymph nodes in the pig 196
- Brain function, Concussive methods of pre-slaughter stunning in sheep: effects of captive bolt stunning in the poll position on 353
- Brain function using cortical evoked responses, Concussive methods of pre-slaughter stunning in sheep: assessment of 349
- Broiler breeding fowls, Chronic orthopaedic disease in adult male 340
- Bronchus associated lymphoid tissue in the lungs of cattle: relationship to age 211
- Brucella abortus* and *Staphylococcus aureus* vaccines in sheep, Variations in immunoglobulin isotype produced during the antibody response to 191
- Brucella ovis* by ELISA profiling, Identification of immunoreactive membrane antigens of 1
- Brucella ovis*, Immune response in rams experimentally infected with 85
- Buxtonella sulcata* in British cattle, Patterns of infection with 90
- Caprine serum, Determination of albumin in 82
- Capripoxvirus virus isolates, Comparison of the external dimensions of 425
- Capripoxvirus, Passive protection of sheep against 247
- Catarrhal fever, Malignant: experimental transmission of the 'sheep-associated' form of the disease from cattle and deer to cattle, deer, rabbits and hamsters 76
- Changes in serum pepsinogen and haemoglobin concentrations in calves infected with *Haemonchus contortus* 124
- Characterisation of the effector cells in antibody-dependent and spontaneous cell-mediated cytotoxicity in swine against target cells infected with transmissible gastroenteritis virus 70
- Cheetahs, Haematological reference values for adult pumas, lions, tigers, leopards, jaguars and 268
- Chemotherapy and chemoprophylaxis of hepatic coccidiosis with sulphadimethoxine and pyrimethamine 28
- Chemotherapy and pharmacokinetics of some antimicrobial agents in healthy dwarf goats and those infected with *Ehrlichia phagocytophilia* (tick-borne fever) 386
- Chronic orthopaedic disease in adult male broiler breeding fowls 340

- Colostrum on some biochemical and haematological measurements in newborn piglets, Effect of irradiated sow 316
- Comparison between the renal clearance of endogenous creatinine and inulin in the sheep 410
- Comparison of the external dimensions of capripoxvirus isolates 425
- Concussive methods of pre-slaughter stunning in sheep: assessment of brain function using cortical evoked responses 349
- Concussive methods of pre-slaughter stunning in sheep: effects of captive bolt stunning in the poll position on brain function 353
- Cooperia curticei*: against fenbendazole, Resistance of 423
- Copper deficiency on the viability and function of neutrophils from cattle, Effects of molybdenum or iron induced 417
- Copper on albumin in bovine plasma in vivo after intravenous trithiomolybdate administration. Accumulation of 108
- Cortisol and prolactin, Effect of electroimmobilisation on ovine plasma concentrations of β -endorphin/ β -lipotrophin 371
- Cortisol in pigs: relationship to adrenal responsiveness, Metabolic clearance rate of 361
- Coturnix coturnix japonica* eosinophils and in those from birds with experimentally induced eosinophilia, Ultrastructural and cytochemical studies in normal 149
- Cowdria ruminantium*: attempts to demonstrate antigenic changes of the Kwanyanga stock in mice, Observations on mouse-infective stocks of 98
- Creatinine and inulin in the sheep, Comparison between the renal clearance of endogenous 410
- Cushing's syndrome, Haemostatic abnormalities in canine 228
- Cypermethrin across the surface of sheep skin. Route of passage of 237
- Cytoecetes phagocytophilia* (tick-borne fever) and louping-ill virus, Response of sheep to experimental concurrent infection with 56
- Demonstration of the carrier state in naturally acquired equine arteritis virus infection in the stallion 279
- Determination of albumin in caprine serum 82
- Diarrhoea in the newly weaned pig, Influence of creep feeding and dietary intake after weaning on malabsorption and occurrence of 63
- Diazinon in calves, Effect of pretreatment with hepatic microsomal enzyme inducers on the toxicity of 336
- Duck hepatitis virus in cell cultures derived from avian embryos of different species, Passage of 133
- Effect of electroimmobilisation on ovine plasma concentrations of β -endorphin/ β -lipotrophin, cortisol and prolactin 371
- Effect of irradiated sow colostrum on some biochemical and haematological measurements in newborn piglets 316
- Effect of lasalocid, monensin and thiopeptin on rumen protozoa 251
- Effect of pretreatment with hepatic microsomal enzyme inducers on the toxicity of diazinon in calves 336
- Effects of molybdenum or iron induced copper deficiency on the viability and function of neutrophils from cattle 417
- Effects of monensin and salinomycin on amylase release from the superfused parotid segments of sheep and rat 207
- Efficacy, toxicity and metabolism of imidocarb dipropionate in the treatment of *Babesia ovis* infection in sheep 14
- Ehrlichia phagocytophilia* (tick-borne fever), Chemotherapy and pharmacokinetics of some antimicrobial agents in healthy dwarf goats and those infected with 386
- Eimeria tenella*: studies on resistance to ionophorous anticoccidial drugs, Isolates of 281
- Electroimmobilisation on ovine plasma concentrations of β -endorphin/ β -lipotrophin, cortisol and prolactin, Effect of 371
- ELISA profiling. Identification of immunoreactive membrane antigens of *Brucella ovis* by 1
- Encephalomyelitis vaccines, Improved potency test for live avian 420
- Endogenous creatinine and inulin in the sheep. Comparison between the renal clearance of 410
- Endogenous opioid peptides and the control of gonadotrophin secretion 285
- Enteroviral and parvoviral antibodies in pig sera, Prevalence of 397
- Eosinophil production in the domestic fowl (*Gallus gallus domesticus*), Experimental stimulation of 114
- Eosinophilia, Fine structural and cytochemical studies of eosinophils from fowls and ducks with 135
- Eosinophilia, Ultrastructural and cytochemical studies in normal Japanese quail (*Coturnix coturnix japonica*) eosinophils and in those from birds with experimentally induced 149
- Eosinophils and in those from birds with experimentally induced eosinophilia, Ultrastructural and cytochemical studies in normal Japanese quail (*Coturnix coturnix japonica*) 149
- Eosinophils from fowls and ducks with eosinophilia, Fine structural and cytochemical studies of 135
- Epithelial cells in the bovine teat, Antibody-containing cells and specialised 50
- Escherichia coli* endotoxin-induced sensitisation and abortion in sows. Experimental 131
- Evaluation of five serological tests for the detection of antibody to bovine herpesvirus 1 in vaccinated and experimentally infected cattle, An 378
- Experimental *Escherichia coli* endotoxin-induced sensitisation and abortion in sows 131
- Experimental stimulation of eosinophil production in the domestic fowl (*Gallus gallus domesticus*) 114
- Exposure of sheep to natural aerosols of foot-and-mouth disease virus 45
- Fenbendazole, Resistance of *Cooperia curticei* against 423
- Fine structural and cytochemical studies of eosinophils from fowls and ducks with eosinophilia 135
- Flow microfluorimetry of specific binding of antibody to some serotypes of *Haemophilus pleuropneumoniae*, Quantification by 277

- Foot-and-mouth disease oil emulsion vaccination in the presence and absence of maternally derived neutralising antibodies, Response of young pigs to 33
- Foot-and-mouth disease virus. Exposure of sheep to natural aerosols of 45
- Functional antibody responses in pigs vaccinated with live and inactivated Aujeszky's disease virus 331
- Fusobacterium necrophorum*, Serological response of mice to 412
- Gallus gallus*: oedema, vascular permeability and effects of non-steroidal anti-inflammatory drugs. Turpentine-induced acute inflammatory response in 231
- Gastroenteritis virus, Characterisation of the effector cells in antibody-dependent and spontaneous cell-mediated cytotoxicity in swine against target cells infected with transmissible 70
- Gastroenteropancreatic endocrine cells of the herbivorous Japanese field vole, *Microtus montebelli*, Immunohistochemical study of 21
- Gastronemius tendon of domestic fowl: histological findings in different strains, The 402
- Glossina morsitans centralis*, Susceptibility of buffaloes, cattle and goats to infection with different stocks of *Trypanosoma vivax* transmitted by 307
- Gonadotrophin secretion, Endogenous opioid peptides and the control of 285
- Greyhound, Tryptophan metabolism and urinary quinoline bases in the 273
- Haematological reference values for adult pumas, lions, tigers, leopards, jaguars and cheetahs 268
- Haemonchus contortus*, Changes in serum pepsinogen and haemoglobin concentrations in calves infected with 124
- Haemophilus pleuropneumoniae*, Quantification by flow microfluorimetry of specific binding of antibody to some serotypes of 227
- Haemostatic abnormalities in canine Cushing's syndrome 228
- Hepatic coccidiosis with sulphadimethoxine and pyrimethamine. Chemotherapy and chemoprophylaxis of 28
- Hepatic microsomal enzyme inducers on the toxicity of diazinon in calves. Effect of pretreatment with 336
- Herpesvirus 1 in vaccinated and experimentally infected cattle. An evaluation of five serological tests for the detection of antibody to bovine 378
- Herpesvirus type 1. Responses of cats to nasal vaccination with a live, modified feline 323
- Hydrogen peroxide by phagocytic cells from bovine non-lactating mammary glands. Secretion of 365
- Identification of immunoreactive membrane antigens of *Brucella ovis* by ELISA profiling 1
- IgA memory between identical sheep by lymphocytes collected from gastric lymph. Transfer of immunity to *Ostertagia circumcincta* and 300
- IgA purified from lung lavage fluid, Monoclonal antibodies against ovine 102
- IgM, Monoclonal antibodies specific for pig serum and cell surface 356
- Ileal cannula for adult cockerels, An improved 283
- Imidocarb dipropionate in the treatment of *Babesia ovis* infection in sheep, Efficacy, toxicity and metabolism of 14
- Immune response in rams experimentally infected with *Brucella ovis* 85
- Immunofluorescence in the serological diagnosis of parainfluenza type 3 and respiratory syncytial virus infection in calves 414
- Immunoglobulin isotype produced during the antibody response to *Brucella abortus* and *Staphylococcus aureus* vaccines in sheep, Variations in 191
- Immunoglobulin containing cells in the tracheobronchial tree of cattle: relationship to age 221
- Immunohistochemical study of gastroenteropancreatic endocrine cells of the herbivorous Japanese field vole, *Microtus montebelli* 21
- Improved ileal cannula for adult cockerels, An 283
- Improved potency test for live avian encephalomyelitis vaccines 420
- Incidence of group A and atypical rotaviruses in Brazilian pig herds 270
- Influence of creep feeding and dietary intake after weaning on malabsorption and occurrence of diarrhoea in the newly weaned pig 63
- Influenza haemagglutinin, Responses of cattle, sheep and poultry to a recombinant vaccinia virus expressing a swine 40
- Interactions between vecuronium and suxamethonium in the dog 93
- Inulin in the sheep, Comparison between the renal clearance of endogenous creatinine and 410
- Ionophorous anticoccidial drugs, Isolates of *Eimeria tenella*: studies on resistance to 281
- Irradiated sow colostrum on some biochemical and haematological measurements in newborn piglets. Effect of 316
- Isolates of *Eimeria tenella*: studies on resistance to ionophorous anticoccidial drugs 281
- Jaguars and cheetahs, Haematological reference values for adult pumas, lions, tigers, leopards 268
- Japanese field vole, *Microtus montebelli*, Immunohistochemical study of gastroenteropancreatic endocrine cells of the herbivorous 21
- Japanese quail (*Coturnix coturnix japonica*) eosinophils and in those from birds with experimentally induced eosinophilia, Ultrastructural and cytochemical studies in normal 149
- Kwanyanga stock in mice. Observations on mouse-infective stocks of *Cowdria ruminantium*: attempts to demonstrate antigenic changes of the 98
- Lasalocid, monensin and thiopeptin on rumen protozoa, Effect of 251
- Lions, tigers, leopards, jaguars and cheetahs, Haematological reference values for adult pumas 268
- Louping-ill virus, Response of sheep to experimental concurrent infection with tick-borne fever (*Cytoecetes phagocytophilia*) and 56
- Lungs of cattle: relationship to age, Bronchus associated lymphoid tissue in the 211
- Lymph nodes in the pig, Blood vessels of 196

- Lymphoid tissue in the lungs of cattle: relationship to age, Bronchus associated 211
- Malabsorption and occurrence of diarrhoea in the newly weaned pig, Influence of creep feeding and dietary intake after weaning on 63
- Malignant catarrhal fever: experimental transmission of the 'sheep-associated' form of the disease from cattle and deer to cattle, deer, rabbits and hamsters 76
- Mastitis in the cow, Acute phase response and 126
- Metabolic clearance rate of cortisol in pigs: relationship to adrenal responsiveness 361
- Microtus montebelli*, Immunohistochemical study of gastroenteropancreatic endocrine cells of the herbivorous Japanese field vole 21
- Molybdenum or iron induced copper deficiency on the viability and function of neutrophils from cattle, Effects of 417
- Monensin and salinomycin on amylase release from the superfused parotid segments of sheep and rat, Effects of 207
- Monensin and thiopeptin on rumen protozoa, Effect of lasalocid 251
- Monoclonal antibodies against ovine IgA purified from lung lavage fluid 102
- Monoclonal antibodies specific for pig serum and cell surface IgM 356
- Mycobacteria and other microorganisms, Shared epitopes between 275
- Neuroma formation following partial beak amputation (beak trimming) in the chicken 383
- Neutrophils from cattle, Effects of molybdenum or iron induced copper deficiency on the viability and function of 417
- Observations on mouse-infective stocks of *Cowdria ruminantium*: attempts to demonstrate antigenic changes of the Kwanyanga stock in mice 98
- Oedema, vascular permeability and effects of non-steroidal anti-inflammatory drugs, Turpentine-induced acute inflammatory response in *Gallus gallus* 231
- Oesophagostomum radiatum*, Antigenic differences among the life cycle stages of 129
- Opioid peptides and the control of gonadotrophin secretion, Endogenous 285
- Orthopaedic disease in adult male broiler breeding fowls, Chronic 340
- Ostertagia circumcincta* and IgA memory between identical sheep by lymphocytes collected from gastric lymph, Transfer of immunity to 300
- Output of triglyceride from the sebaceous gland and to the skin surface of cattle 242
- Parainfluenza type 3 and respiratory syncytial virus infection in calves, Immunofluorescence in the serological diagnosis of 414
- Parotid segments of sheep and rat, Effects of monensin and salinomycin on amylase release from the superfused 207
- Parvoviral antibodies in pig sera, Prevalence of enteroviral and 397
- Parvovirus: propagation in microcarrier cell culture and immunogenic evaluation in pregnant gilts, Porcine 391
- Passage of duck hepatitis virus in cell cultures derived from avian embryos of different species 133
- Passive protection of sheep against capripoxvirus 247
- Patterns of infection with *Buxtonella sulcata* in British cattle 90
- Phagocytic cells from bovine non-lactating mammary glands, Secretion of hydrogen peroxide by 365
- Phenylbutazone from a paste formulation administered orally to the horse, Absorption of 200
- Population dynamics of *Trichostrongylus colubriformis* in sheep following anthelmintic treatment 319
- Porcine parvovirus: propagation in microcarrier cell culture and immunogenic evaluation in pregnant gilts 391
- Pre-slaughter stunning in sheep: assessment of brain function using cortical evoked responses, Concussive methods of 349
- Pre-slaughter stunning in sheep: effects of captive bolt stunning in the poll position on brain function, Concussive methods of 353
- Prevalence of enteroviral and parvoviral antibodies in pig sera 397
- Prolactin, Effect of electroimmobilisation on ovine plasma concentrations of β -endorphin/ β -lipotrophin, cortisol and 371
- Proteinuria in the dog: a clinical study in 51 proteinuric dogs 257
- Pulmonary dysfunction in anaesthetised cattle, Radiographic evidence of 162
- Pumas, lions, tigers, leopards, jaguars and cheetahs, Haematological reference values for adult 268
- Pyrimethamine, Chemotherapy and chemoprophylaxis of hepatic coccidiosis with sulphadimethoxine and 28
- Quantification by flow microfluorimetry of specific binding of antibody to some serotypes of *Haemophilus pleuropneumoniae* 277
- Quinoline bases in the greyhound, Tryptophan metabolism and urinary 273
- Radiographic evidence of pulmonary dysfunction in anaesthetised cattle 162
- Recombinant vaccinia virus expressing a swine influenza haemagglutinin, Responses of cattle, sheep and poultry to a 40
- Renal clearance of endogenous creatinine and inulin in the sheep, Comparison between the 410
- Resistance of *Cooperia curticei* against fenbendazole 423
- Respiratory syncytial virus infection in calves, Immunofluorescence in the serological diagnosis of parainfluenza type 3 and 414
- Response of sheep to experimental concurrent infection with tick-borne fever (*Cytoecetes phagocytophilia*) and louping-ill virus 56
- Response of young pigs to foot-and-mouth disease oil emulsion vaccination in the presence and absence of maternally derived neutralising antibodies 33
- Responses of cats to nasal vaccination with a live, modified feline herpesvirus type 1 323
- Responses of cattle, sheep and poultry to a recombinant

- vaccinia virus expressing a swine influenza haemagglutinin 40
- Rotaviruses in Brazilian pig herds, Incidence of group A and atypical 270
- Route of passage of cypermethrin across the surface of sheep skin 237
- Rumen protozoa, Effect of lasalocid, monensin and thiopeptin on 251
- Salinomycin on amylase release from the superfused parotid segments of sheep and rat, Effects of monensin and 207
- Secretion of hydrogen peroxide by phagocytic cells from bovine non-lactating mammary glands 365
- Serological response of mice to *Fusobacterium necrophorum* 412
- Shared epitopes between mycobacteria and other micro-organisms 275
- Staphylococcus aureus* vaccines in sheep, Variations in immunoglobulin isotype produced during the antibody response to *Brucella abortus* and 191
- Sulphadimethoxine and pyrimethamine, Chemotherapy and chemoprophylaxis of hepatic coccidiosis with 28
- Susceptibility of buffaloes, cattle and goats to infection with different stocks of *Trypanosoma vivax* transmitted by *Glossina morsitans centralis* 307
- Suxamethonium in the dog, Interactions between vecuronium and 93
- Tendons with regard to their mechanical function, Variations in cross-sectional area and composition of equine 7
- Thiopeptin on rumen protozoa, Effect of lasalocid, monensin and 251
- Tick-borne fever (*Cytoecetes phagocytophilia*) and louping-ill virus, Response of sheep to experimental concurrent infection with 56
- Tigers, leopards, jaguars and cheetahs, Haematological reference values for adult pumas, lions 268
- Tracheobronchial tree of cattle: relationship to age, Immunoglobulin containing cells in the 221
- Transfer of immunity to *Ostertagia circumcincta* and IgA memory between identical sheep by lymphocytes collected from gastric lymph 300
- Trichostrongylus colubriformis* in sheep following anthelmintic treatment, Population dynamics of 319
- Trichostrongylus colubriformis* larvae: effects on infectivity and fecundity of adult worms, Winter survival of third stage 265
- Triglyceride from the sebaceous gland and to the skin surface of cattle, Output of 242
- Trithiomolybdate administration, Accumulation of copper on albumin in bovine plasma in vivo after intravenous 108
- Trypanosoma vivax* transmitted by *Glossina morsitans centralis*, Susceptibility of buffaloes, cattle and goats infection with different stocks of 307
- Tryptophan metabolism and urinary quinoline bases in the greyhound 273
- Turpentine-induced acute inflammatory response in *Gallus gallus*: oedema, vascular permeability and effects of non-steroidal anti-inflammatory drugs 231
- Ultrastructural and cytochemical studies in normal Japanese quail (*Coturnix coturnix japonica*) eosinophils and in those from birds with experimentally induced eosinophilia 149
- Use of an enzyme indirect antiglobulin test for the diagnosis of autoimmune haemolytic anaemia in the dog 187
- Variations in cross-sectional area and composition of equine tendons with regard to their mechanical function 7
- Variations in immunoglobulin isotype produced during the antibody response to *Brucella abortus* and *Staphylococcus aureus* vaccines in sheep 191
- Vascular permeability and effects of non-steroidal anti-inflammatory drugs, Turpentine-induced acute inflammatory response in *Gallus gallus*: oedema 231
- Vecuronium and suxamethonium in the dog, interactions between 93
- Winter survival of third stage *Trichostrongylus colubriformis* larvae: effects on infectivity and fecundity of adult worms 265
